

Dear Sector Representative,

Turkish National Society for Rock Mechanics is organising the EUROCK 2016 ISRM International Symposium in coordination with International Society for Rock Mechanics (ISRM). The Symposium will be held between 29th – 31st August 2016 in Cappadocia (Turkey). Cappadocia is one of the seven sites included in the World Heritage List by UNESCO and also a natural and historical rock engineering laboratory.

The title of the symposium is "**Rock Mechanics & Rock Engineering: From the Past to the Future**". The symposium intends to cover all aspects of rock mechanics and rock engineering from theories to engineering practices, emphasizing the future direction of rock engineering technologies. This event will be an excellent opportunity to promote the exchange of knowledge and experiences in various areas of the rock mechanics and rock engineering, as well as to visit many historical sites including old and modern rock structures caved in the soft tuffs of Cappadocia. The venue of the symposium, Ürgüp -Nevşehir, is located in the heart of the Cappadocia Region with convenient access to restaurants, hotels, historical sites and national museums. We believe that you will also enjoy participating to post-symposium excursions in the Cappadocia Region and İstanbul.

The participants will not only find a chance to discuss the technical issues but also will find a chance to socialize during the conference dinners to discuss the future events. The attendance of rock mechanics experts coming from the six continents will result in formation of a very strong technical program for the Rock Mechanics & Rock Engineering and will also provide guidance for the next conferences.

With reference to this significant event you may find the file containing sponsorship options for your information. We will be proud of the participation of your company as one of our fellow supporters. We hope to be together with you in Cappadocia / Ürgüp, Nevşehir - TURKEY.

Prof. Reşat ULUSAY

EUROCK2016, Chairman of the Organizing Committee.
